

# OSUWMC Evidence-Based Clinical Practice Guideline Revision Form

---

Guideline Title: \_\_\_\_\_

Reviewer Name: \_\_\_\_\_

Date: \_\_\_\_\_

## Instructions

- Please use one feedback form per guideline reviewed and complete a separate page as indicated for **each** change recommended.
- If there are no changes, please check the box on the bottom of this page indicating you “Agree with the guideline as written”.
- Once complete, please return to the form to [Tricia.Montgomery@osumc.edu](mailto:Tricia.Montgomery@osumc.edu)

I agree with the guideline as written

I DO NOT agree with the guideline as written (proceed to page 2)

After reviewing the guideline, please complete the table to rate the guideline on each of the below attributes.

| Attribute  | Strongly Disagree | Disagree | Neither | Agree | Strongly Agree |
|--|-------------------|----------|---------|-------|----------------|
| Up to date<br><i>Guideline includes the most up to date recommendations.</i>   |                   |          |         |       |                |
| Accurate<br><i>Guideline does not include any incorrect information.</i>   |                   |          |         |       |                |
| Thorough<br><i>The guideline is complete and discusses all issues of importance when treating the patient population of interest.</i>                    |                   |          |         |       |                |
| Useful<br><i>The guideline is relevant, providing medical professionals with valuable information and recommendations.</i>                               |                   |          |         |       |                |
| Organized<br><i>The guideline is well structure in a way that helps the reader understand the clinical course of action.</i>                             |                   |          |         |       |                |
| Comprehensible/ Succinct<br><i>The guideline is clear without any ambiguity or redundancy.</i>   |                   |          |         |       |                |
| Internally Consistent<br><i>No part of the guideline contradicts another. The guideline does not contradict any other OSUWMC guidelines or policies.</i> |                   |          |         |       |                |
